The Kirkendall Neighbourhood Association

The mission of the Association is to promote a strong, liveable community and to empower residents of our neighbourhood through community involvement. Our objectives are:

- To engage members of the community in issues both specific to the area and Hamilton wide.
- To participate in planning that affects the residents of this community
- To foster a safe, secure community.
- To increase the natural beauty and environmental sustainability of the neighbourhood
- To promote redevelopment that reflects the values of the neighbourhood.
- To be a credible, powerful and representative voice for the community, while remaining non-partisan and inclusive.
